EXPERIENCE

GIRL'S BASKETBALL

2009 – 2018

I have played basketball for ten years in a combination with my school and my outside league, AAU. Practices were almost every day of the week for two hours, with games in between. While doing basketball, I learned the fundamental skill of teamwork as you cannot play or win by yourself.

RANDOM ACTS OF KINDNESS (RAK) CLUB

2014 – 2018

I became a member of this club during my freshman year of high school, vice president of the club sophomore year, and finally the president of the club my junior year. This club helps to promote kindness and love in school and in the city. As the president of the club, I ran the meetings, the school website, and organized events. One big event that I was responsible for coordinating during the year is RAKs week, where we hold an event everyday such as passing out kind letters to strangers and making kindness pins and chalk murals. When I became president, I decided to organize a clothing drive for the homeless and underprivileged children. For this event, I organized a day where we would go to the Tenderloin in SF and pass out the clothes which we collected from our drive at school. This was a huge success, as we were able to get our school to participate and help out.

STUDENT GOVERNMENT

2016 – 2018

In student government, I was the Principal Cabinet Coordinator. In this position, my responsibilities included coordinating meetings with the homeroom presidents, club representatives, and principal, as well as attending weekly ASB meetings. In addition to coordinating the meetings, I also needed to meet with the principal to plan the meetings and our goals for the year. Since I was not only the Principal's Cabinet Coordinator, I was also responsible for general ASB duties such as making posters, announcements, fundraising, passing out grams, and selling school merchandise during school events.

VOLUNTEER AT SFSPCA

2011 – 2016

As a volunteer at the SPCA since I was in middle school, I was responsible of walking dogs, as well as socializing cats and dogs. By socializing, dogs and cats were able to find their new homes, as many were too shy at the beginning to be adopted.

STUDENT OF CHICKTECH

2016 – 2018

In the eleventh grade, I was nominated to participate in the ChickTech program. ChickTech is an organization that helps promote females into the STEM fields. As a student of ChickTech, I was encouraged to attend their

workshops that were held year-round at various technological firms in the Bay Area. I attended a couple of workshops that were very interesting. For example, I was able to learn how to build and design a website from scratch using JavaScript. I was also able to help develop an app using Pop! by Marvel.

VOLUNTEER AT THE CALIFORNIA PACIFIC MEDICAL CENTER (CPMC)

2017 – 2018

As a volunteer at CPMC I gained some experience into the scientific field. While volunteering, I was able to learn how to read images of hearts, breasts, thyroids, and lungs, as I volunteered in the Nuclear Medicine Department. The technicians also allowed me to help them edit some scans so that the doctor would be able to see the image more clearly, and identify where the problem was quicker. Additionally, I helped to burn CD's and scan files for the department.

VOLUNTEER AT OMNI NANO

2017 – 2018

As a volunteer at Omni Nano, which is a nonprofit nanotechnology firm which aims to educate students about nanotechnology, I was able to learn more about engineering and nanotechnology. My role as a volunteer was to promote nanotechnology through social media such as Twitter, LinkedIn, Instagram, Facebook, etc. In order to promote nanotechnology, I was responsible for reading numerous articles about nanotechnology and its advancements, then posting about interesting topics which I found.

EDUCATION

LAWTON ALTERNATIVE SCHOOL

2005-2015

I attended a K-8 school that is regarded as one of the best schools in the San Francisco Unified School District.

LANGUAGE SCHOOL

2006-2017

Formally studied Mandarin for eleven years at different locations.

ABRAHAM LINCOLN HIGH SCHOOL (ALHS)

2014-2018

I attended ALHS, which is one of the most highly requested high schools in the San Francisco Unified School District. At ALHS, I took five AP courses including AP World History, AP Calculus AB, AP Biology, AP United States History, and AP Government and Politics. Additionally, I was part of a pathway called Business Academy.

CITY COLLEGE OF SAN FRANCISCO (CCSF)

2015-2018

I attended CCSF through the concurrent enrollment program, as Lincoln HS did not offer many challenging courses. At CCSF, I took College Success, Intermediate Chinese, Introduction to Physics, Introduction to Physics Lab, Calculus One, Mechanics for Scientists and Engineers, Mechanics for Scientists and Engineers Lab, Introduction to Engineering, and Calculus Two.

SKYLINE COLLEGE

2015-2018

I attended Skyline College through the concurrent enrollment program, as Lincoln HS did not offer many challenging courses. At Skyline, I took Elementary Probability and Statistics as well as attended the Expanding Your Horizons Program.

ACHIEVEMENTS

POEM PUBLICATIONS

2015 – 2016

In the tenth grade, my English teacher encouraged me to submit some of my poems for publication at Creative Communications. I submitted a total of three poems, and all three were published by Creative Communications.

AP SCHOLAR WITH HONORS

2017 – 2018

In the eleventh grade, I took three advanced placement courses at ALHS, which earned me the award of AP Scholar with Honors because I averaged a total score of 3.25 with three or more advanced placement courses.
